

KARABELO THONKHA

Maseru, Lesotho | +266 63984842 | karabelothonkha9@gmail.com

PROFESSIONAL PROFILE

Results-driven monitoring, data management, and programme support professional with 5+ years of experience tracking institutional submissions, managing compliance documentation, and maintaining grant portfolio records within complex, multi-stakeholder development programmes. Demonstrated ability to design and operate structured tracking systems, produce status reports and dashboards, and maintain rigorous version control and records management across concurrent workstreams. Experienced in bilateral and donor-funded governance environments, including IFAD and World Bank-funded portfolios, with a strong track record of ensuring accurate, timely, and accessible institutional information. Proficient in Microsoft 365 including Excel, Power BI, SharePoint, and Teams. Committed to evidence-based decision-making and institutional memory management.

EMPLOYMENT HISTORY

Service Provider Consultant | SADP II — World Bank / IFAD-Funded Programme

Qacha's Nek, Lesotho | Nov 2020 – Nov 2022

- Managed and maintained a structured grants tracking database in Excel covering 12+ institutional grants, recording funder requirements, submission deadlines, compliance conditions, milestone schedules, and renewal timelines — directly replicating the document and records management functions required of this role.
- Tracked the full cycle of programme submissions and responses, monitoring turnaround timelines and escalating delays to programme leadership — supporting the Commission Secretary equivalent function within the SADP II Programme Management Unit.
- Maintained comprehensive, version-controlled programme documentation for all reporting periods, ensuring accessibility, accuracy, and security of records for IFAD and World Bank oversight missions.
- Produced quarterly narrative status reports, progress dashboards, and compliance documentation, translating programme implementation data into clear evidence-based summaries for institutional funders and government partners.
- Monitored implementation progress against programme resolutions and action items across multiple commodity groups, maintaining structured action trackers and flagging off-track milestones to programme management.
- Coordinated information flows across programme finance, M&E, and technical teams, ensuring that all documentation met funder standards and institutional memory was preserved across reporting cycles.
- Supported the identification and documentation of co-financing opportunities and partnership engagements, maintaining records of stakeholder interactions with district government and private sector partners.

Operations Officer | VFS Global

Maseru, Lesotho | Nov 2021 – Nov 2022

- Maintained 100% data accuracy across high-volume records management systems, applying strict version control and data integrity standards consistent with a multi-delegation, governance-environment records function.
- Managed structured formal correspondence and reporting with government stakeholders, applying documentation standards and quality assurance frameworks directly applicable to Commission secretariat support.

Assistant Manager | Sylrose Hatchery

Thaba-Tseka, Lesotho | Nov 2022 – Present (Part-time)

- Developed and maintained operational reporting systems, KPI tracking tools, and compliance documentation within a Microsoft 365 environment, building monitoring infrastructure to support management oversight and reporting.
